of Correction

PETITION FOR RECONSIDERATION

Sir:

It is respectfully requested that the U.S. Patent and Trademark Office reconsider applicant's request for a Certificate of Correction pertaining to alleged printing errors in Col. 9, line 47 which was submitted to the U.S. Patent and Trademark Office on January 13, 2003 on Form PTO-1050.

Because the listed errors are not those of the applicant but rather of the Patent and Trademark Office, a certificate of correction is clearly in order. Applicant requested that claims 1-25 be canceled in a preliminary amendment that was filed on 7-25-2001 and received by the Patent and Trademark Office as evidenced by a return postcard dated 7-27-2001, both attached hereto.

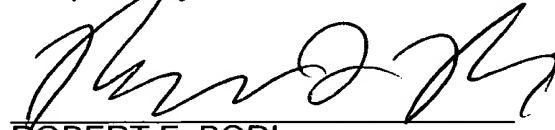

Furthermore, the Examiner's suggestion that claim cancellations should be done by Statutory Disclaimer under 37 CFR 1.321(a) is improper, as that rule pertains to claims that are not going to be enforced. In contrast, in this case, one or more of claims 1-25 are found in another *enforceable* patent. Hence, an disclaimer is not appropriate as applicant is not in any way waiving enforcement of those claims.

DEC 03 2003

Please charge any fees involved with the issuance of this Certificate of Correction to our deposit account 16-0820.

Respectfully submitted,

Date: 11-17-03
